ABERDEEN KAIFONG CO.'S PROGRESS.

Further progress is reported by the Kaifong (community) motorbus company which runs a fleet of vehicles between Hongkong (Eastern Street) and Aberdeen.

The company now possesses twelve buses. Since the start four years ago, the type has been gradually changed. Accommodation is now much better, pneumatic tyres are used and the equipment is superior to the boneshakers of the early days.

Other new buses, each seating 22 passengers, are being inspected by the traffic office prior going on the street.

Attitude of Miners.

Rugby, July 8. With the prospect of the Coal Mines Bill receiving Royal assent to-night much interest is being displayed in the attitude of the miners toward the new offers by the owners of 'pre-strike' wages

Reports indicate that at present little inclination for a return to work is shown in the coal gauge the full effect of the new development for some days.

The newspapers state that their opposition voiced by the miners is directed against the fact that clothing at a shop in Yaumati"he the offers are made by districts and not nationally rather than against the increase of the working hours.

COMMERCE AND FINANCE.

ORIENTAL COMMERCIAL BANK-CREDITORS.

About 50 creditors of, and others interested in, the Oriental Commereial Bank, Etd., met in a back room of the Bank's premises at 90 Peking Roud, Shanghai, on the 30th ult. for a preliminary discussion of the bank's affairs.

It was decided at an extraordinary general meeting at Hongkong on June: 18 to go into voluntary liquidation. At the meeting at which this resolution was adopted, Mr. Loong, assistant managing director, said that the managing director, who was the chief promoter, had lost heavily on his own volved the bank. There has been a run on the concern for over three months, but it was stated that all' liabilities, with the exception of two lakhs, had been paid off.

Messrs E. C. Allen, L. D. Nee, T. H. Chen, P. Calcino, S. Matsumote, Miss P. T. Kyoung, and representatives of the Kwen Mee Yat Manufacturing Co.," were amongst those at the meeting, and for a considerable while bank offi-. cials were subjected to a volley of questions.

Still In Doubt.

It appeared, however, that the officials in Shanghai know little about the Bank's present state of affairs. It was explained that all accounts were not in and it was impossible to ascertain at present, how much was owing to brokers, etc., as some of them had not rendered their statements. Eventually it was decided that all creditors should submit their claims to the Bank's officials here, who would in the meanwhile approach the head office in Hongkong for a statement as to the concern's posi-

One creditor asserted that the Bank's laibilities were more than Tla. 74.000, but the local manager replied that they expected to collect about Tls. 65,000. It was impossible to put before the creditors at the meeting a true statement of the Bank's position, but this would be prepaged and disclosed a soon as outstanding accounts had beer checked and other banks had rendered their statements.

Inquiries ha to the whereabouts of a Mr. Lee brought a response that he was last heard of on June 22, when he wrote and said he was feeling ill owing to the strain of the past few weeks. Since then it had been stated that he had gone away, but it was not known where.

Another question as to whether the Bank intended to carry on in the present premises, having regard to the big overhead expense, elicited the information that the -officials-had arranged to pay-the landlord three months' rent in consideration of being released from a year's lease which did not expire until December next.

A creditor.-How can we pay three months' rent when ... we have

no money? An official stated that the rent would stand as a preferential claim. The staff had already been reduced.

Another creditor pointed out that the local Bank was only branch of the Hongkong concern, and if Hongkong had plenty of money, why was not some sent to Shanghai to clear up the situation

The officials replied that they did not know whether Hongkong had any money. Nothing regarding the decision to go into voluntary liquidation was known here except what had appeared in the

Interest In S.F.

This information was to the effect that the Bank held an interest in the Canton Bank of San Francisco, and this was to be sold to an American banking corporation. The branches in Tientsin, Shanghai, Bangkok and Havana had been closed, but the Hongkong officials said they could comfortably clear their liabilities. The working capital of the branches, it was also stated, would be transferred to the head office in Hongkong and the assets would exceed the liabilities. Messrs. Lai Hin-man, Kwok Tatsun. Ip Pik-chuen and Lui Mui-sun were appointed trustees.

Another meeting of local creditors will be called at a date to be announced, when it is hoped that a position will be made.

Dr. Legard's New Life Tablets A FOE TO OLD AGE.

Imparts to the Old and Middle-aged Youthfulness, Energy and Fitness, retards mental and physical decay, thus promoting longevity. Preserves the arteries and tissues. Sufferers from Deafness with its many distressing accompanying ailments as head noises derive almost immediaté benefit. .. Calm refreshing sleep is assured. Gloom, Depression and Nervousness are banished under the influence of these Lifegiving Tablets. Wrinkles, hard lines and blemishes disappear. The skin becomes clear, tight, and elastic, and the Complexion bright and smooth. Think of the blessings of perfect health, the possession of few; the Joy of a clear Youthful appearance and tingling blood, of lustrous hair, bright eyes and health tinted cheeks the beauty of radiant, life and the realisation that Time has been put back Ten Years to the envy and admiration of your friends, and the unbounded satisfaction of yourself. Can you allow a golden opportunity like this to pass? Remember there are no arduous rules to follow, no restriction in diet, nor are there any ill effects after. On the contrary it gives the entire system feeling of exaltation with increased mental and bodily vigour. Why not look and feel 30 at 50? Do not delay, commence the treatment at once. You will never regret the slight cost incurred for such incalculable benefit. The price of these Marvellous Tablets including Mail Charges is 12/- per Bottle, dispatched in plain wrapper on receipt o amount.

Obtainable only from DR. LEGARD'S LABORATORIES, 106, Liverpool Road, Barnsbury, London, England. AVOID USELESS IMITATIONS

FAR EAST AERONAUTICS.

According to a Singapore contemporary, that city is to lead the way in Far East air development. The following ambitious scheme has been tentatively drawn up:-

(a) A local company is to be capital of \$5,000,000.

(b) This company will purchase British seaplanes and open a route from Singapore, via Penang, to Calcutta.

(c) At Calcutta the service will Airways, Ltd., which then travels via Karachi Europe.

It is stated that Messrs. Eu Tong Sen & S. Q. Wong have already guaranteed \$2,500,000 on behalf of themselves and friends, and Mr. F. Alexander, of Malayan Motors, Limited, "an air pilot of great experience, who has been employed on commercial navigation at Home," is to be technical adviser. In a Press interview Mr. Alexander said: "We shall use all British machines, and we expect to beways system. This will, of course, give us very important advantages, especially in the matter of aid from the British Government." Asked about the type

of 'plane to be employed, Mr. Alexander said that they would all be seaplanes, because of the to the wife of M. A. Young, vastly superior economy of such machines, no sites, no aerodromes and no land staffs being required: "British capital, which we hope we shall get to a very great extent, will be a distinct help in becoming associated with the Imperial system, which is exclusively

> British," added Mr. Alexander. The seaplanes to be employed will carry passengers as well as, it is hoped, express and mai

business. Commenting on the scheme the Straits Echo points out that there is tremendous scope in the Far East for the development of air Coates, of Langley Park, routes, for the foundation which there have been a number of foreign competitors in the field. All these Far Eastern R. D. Whitehorn, Stewart flights, about which we hear so much, have been planned for one purpose only and it had become obvious that, if British enterprise day, June 26, at St. George's was to prove itself, early action was necessary to put into operation regular air lines before foreign competitors could do so. scheme was considered in London some months ago for making Singapore an important air junction, but the plans were then dismissed as being impracticable. At the present time it would seem that the success or failure of the scheme must lie with Imperia Marjorie Louise Emil, the wife Airways, Ltd., for only their decision to co-operate with the proposed Singapore company will make the enterprise the success it deserves to be. It is confidently

anticipated that the Straits Gov-

ernment will support the scheme

financially; at any rate its co-

operation is practically assured.

OBITUARIES. COMDR. RUTTERWORTH. R.N.

from indifference.

Commander Henry Butterworth, R.N., who died on May 28, at Queen's Beachwood. Guernsey, aged 60, began his sea career in the Mercantile Marine. Some years later he transferred to the Royal Navy as a supplementary lieutenant, and joined the cruiser Immortalité, under Captain Sir Edward Chichester, in China. Afterwards he was navigator in various ships, including service formed, probably with a from 1906 to 1910 at Hongkong.

On its success will depend the

eventual participation of this

MR. CECIL RAY.

Widespread regret has been expressed in Surbiton at the death in Penang on June 6 of Mr. Cecil Ray, only son of Mr. F. B. Ray, J.P. chairman of Surbiton District link up with that of Imperial Council. Mr. Cecil Ray was born in Surbiton, and was educated at Elmhurst . School, Kingston, which he was elected captain by a popular vote. At the age of sixteen, during the Great War, he entered as a cadet the Union Castle Steamship Line, and was engaged in the transport of troops, and, for some months after the Armistice, in the return of prisoners of war He had four years affoat, but he gave up-the sea to take up an appointment at Singapore under the British-American Tobacco Company. Only last Christmas he was appointed manager of the Penang branch. Mr. Cecil Ray died in hospital from septicoemia, the day after his twenty-fourth birthday.

DIOCESAN REUNION

HONGKONG PEOPLE MEET IN LONDON.

FORMER GOVERNOR'S ADDRESS

With a view to improving cultural relations "between Britain and China and bringing the two countries into closer touch, a Committee has been formed which is to arrange for the visit to Britain of Chinese lecturers.

This was the subject of reference at the annual reunion gathering of the Hongkong and South China Diocesan Association; held at Victory House, Leicester Square, on June 2. The Rt. Hon. Sir Frederick Lugard, abouts was later traced by the G.C.M.G., K.C.M.G., C.B., D.S.O., police and she was brought back. a former Governor of Hongkong,

> After prayer by the Rev. Dr. G. H. Lander, formerly Bishop of Hongkong, the Chairman referred to the pleasure it gave him to renew touch with friends made during the happy years he had spent in Hongkong. Of late years his chief interest had been with the University of Hongkong and he was glad to understand from the letters he received from the Chancellor and Vice-Chancellor that there were hopeful indications for the future as regarded the financial difficulties through which that institution had been

passing. The Chairman referred to the institution of a Committee which was to arrange for the visit of Chinese lecturers and hoped that such visits might become a permanent feature of the activities of such bodies as were working for closer understanding. The news they got from China day by day was a mass-of contradictions. What people in this country were puzzled to know was what was the original cause of the anti-British feeling " which had been shown in China.

Sir Claud Severn. Sir Claud Severn, late Colonial Secretary, Hongkong, who was also given an enthusiastic reception, expressed in the first place, the very great pleasure it gave him to see so many old friends of the years he had spent in Hong-

He referred in eulogistic terms to the presence of Miss Pitts. O.B.E., Miss Fletcher, and the Rev. Dr. Pearce. Sir Claud Severn then touched very interestingly on certain aspects of Chinese life in Hongkong, more especially of the work among the European community.

Mr. P. H. Holyoak, who had also taken a deep interest in Church matters, and in various phases of Hong-

CHANGE OF POLICY IN CHINA

FACTORS DRIVING POWERS TO NEW ATTITUDE.

SALT, TARIFF, MALTREAT-

The following article, written by Mr. Rodney Gilbert, is culled from the "N. C. Daily News" :- "

Peking, June 19. General Ch'u Yu-p'u, the Fengtien Governor of Chihli, has prob- loans. ably done foreign interests it China and his own' distracted people a tremendous service setting up his own salt revenue collectorate at Tientsin and in seizing the salts taxes in the Ch'ang-Lu district. He has forced upon the world a thorough expose of the complete futility of the policy of "patient conciliation," because one has to review the history of the foreign supervised Salt Collectorate very lightly indeed to discover how Chinese officialdom desponds to a policy based upon good-natured indul-

For months past we have been feeling in Peking that a radical change in the China policy of the great Powers was not only inevitable but imminent. Obstacles to such a change have been rapidly removed, both here and abroad. and the Chinese militarists have been demonstrating the need of it in the most spectacular fashion possible for the benefit of numerous highly placed and highly in telligent special representatives of our several Governments, who are not restricted by the usua diplomatic aversion to creating difficult situations by sending the naked truth home. It has been felt that some very small thing would crop up and be given ar airing, which would force our unwilling Governments to face the whole China question frankly and honestly and would thereby force a change of attitude towards thi country which would lead, by virtue of the obdurate resistance of the Chinese official classes to a curtailment of their looting and exploiting "prerogatives, to thorough and wholesome over hauling of Occidental relations with this unhappy country. "J Peking we are inclined to think now that Ch'u Yu p'u has touched the match to the fuse.

The Collection in Salt Taxes. The salt taxes, as everyone knows, are collected by a Government department of which the Minister of Finance is ex-officio Chief Inspector and of which one of the two Vice-Ministers of Finance is Co-Inspector with a foreigner of equal rank who acts as custodian of the service of foreign loans secured on the revenues of the department. the various salt producing areas in the provinces there are also foreign commissioners whose duty it is to see that the local sal taxes are properly collected. banked and remitted to Peking without misappropriation by the subordinate tax officers and without interference from the provincial military and civil officials.

In Peking and the provinces there are in all about 60 foreigners of various nationalities employed whose specific business it is to safeguard the service of the various foreign loans secured on the salt taxes by seeing that the, revenues collected are duly remitted to the specified custodian banks and that they are not released to the Chinese Government, least of all to a Provincial Government, until all debt charges against the revenue have been met in full. Since this system of supervision is based upon an international agreement with China, the Reorganisation Loan Agreement of 1913, endorsed by the several Governments concerned, the foreign custodians of the loan services are entitled to the support, and protection of their Legations in such resistance. to interferences as may be required to safeguard the integrity of the service.

BREACH OF PROMISE.

SHOULD BE ABOLISHED?

The law still recognises actions for breach" of promise of marriage, though a good many legal authorities would be glad to see them abolished. At times they open the door to something akin to blackmail, and many a man who never promised marriage at all has paid heavily "out of court" to avoid the humiliation of publicity.

But if the action does come into court the burden lies on the woman of proving that the man ever promised to marry her. Her evidence by itself will not be sufficient, however romantic or tempestuous it may be. Her evidence must be corroborated. That is to say, evidence from other sources must be produced sufficient to satisfy the jury that has said. This law about corro-

The best corroboration is to be found in letters." If he has written to her asking her to marry him, or referring to the little home and halcyon days they are to have after the wedding, the plaintiff's task is an easy one, and probably only one letter will have to be read in court. Quotations from a series of letters are usually a sign of weakness. It means that counsel is trying, to evolve corroboration from somewhat, tenuous material.

For, it should be noted, the evidence must show a promise to marry. Passionate avowals of devotion-even eternal devotion-will not be sufficient without a reference to church bells or some other intimation that their mutual affection is to be recognised as permanent by Church or State.

But letters are not the only form his parents' house as -would be corroboration, for such happenings are inexplicable save on

the ground of an engagement. There is, however, one form of silence which is not consent. If the woman has written letters to the man saying that he has promised to marry her and he does not answer them-that by itself is no corrobration of the story that he did so promise. If the is unable to adduce some better evidence than that, the action will end in her discomfiture.-Inner Temple in the "Daily Mail."

The Police are still steadily losing. One wonders why, for South China. the players are all very enthusiastic and quite good players. Perhaps a re-organisation of the various rinks would have a beneficial effect. In any case disagreement between the players is sure to have a deteriorating effect on the play. To-morrow they visit the Civil Service Club with whom they managed at the first meeting to draw at home. Civil Service are, however, a very improved team, and a win for them to-morrow is pretty certain.

The Bowling Green Club are at home to the Craigengower, and judging by present form, are not likely to secure a win at the expense of such a strong combina-

A good fight should be seen on the Kowloon Dock green, where the home team receive Taikoo. The previous result between these two Clubs was an overwhelming victory for the Kowloon Dock, and that at Taikoo, so it seems a sure thing for them to-morrow.

In the Second Division, Taikoo should have a very easy win over the Indians, and the Club de "Recreio should on their own green just manage to win against, the Civil Service second string.

The Yacht Club receive" the ·Cricket Club and should give the latter a very good game. Although, I do not expect them to win, they are certain not to be disgraced.

For the first time for five weeks, the East Point team are away from home. This may or may not affect their sequence of They will find the Craigengower team a tough proposition on the Valley green, and they will need to play all they know to win. They cannot afford to lose a game if they still hope to secure the second division championship.

The offer of a cup for inter-Departmental competition, has raised quite a deal of interest amongst Government Departments, and there is no doubt that the competition will be a success. This is something that should have been thought of years ago, not only for lawn bowls, but for all branches of sport, and I am sure further offers of trophies for cricket, football, etc., will be accepted and competed for with enthusiasm.

The first game in this new competition is due to be played on Sunday, July 25, if possible on the Police Recreation Club green commencing at 3.80 p.m. Consensus of opinion leans toward the fact that the cup will be won this season by either the Police Department or the Sanitary Department, probably because these teams can on paper produce the strongest teams. Personally,

TABLE TO DATE.

Of three lengue baseball matches arranged for the last week-end, one had to be abandoned owing to rain on Saturday. Temporary interference came again on Sunday, but the boys engaged in the league game"trampled the ground sufficiently hard and took away the mud with them to enable the Americans to carry on with their "Independence" game. A mixture of youth, age, inexperience (and summer dress) all combined to add interest to the game, and the married men decided to close the game when they had gained the winning run.

~YORKSHIRE ON TOUR?.

Invited By Australia To Send A Team.

- London, June 19. alt is rumoured that the Yorkshire County Cricket Club has been approached regarding the sending of a team to Australia.

Mr. F. C. Toone (secretary), when interviewed at Lords to-day in this connection, stated that various suggestions had been received, but no official invitation had been extended. nor was he aware that such an invitation was contemplated. 'The question of tours is in

the hands of the Board of Control. Yorkshire's loyalty to this body precludes any idea of sending out a team on the strength of the sugggestions they have received.

NOTES BY MAIL ABOUT

THE TESTS. INTERESTING POINTS.

When England's team for the Second Test at Lord's was cabled, the eleven names were given without qualification, with Sandham (who was not called upon) as 12th

a According to messages which have now arrived by mail, it appears that Larwood (the Notts bowler who displaced Hearne) was put down as "Larwood or Holmes." Holmes, of course, is the Yorkshire batsman For the 1st Test at Nottingham, Holmes's name appeared as substitute for Sutcliffe if the latter had not recovered from an injury,"but Sutcliffe turned out and Holmes was not included. From the same source, it is gathered that Macaulay (the Yorkshire bowler who did not take part in either the 1st or 2nd Test) was also instructed to be present at Lord's on the first day of the Second Test, but his services were also not re-

quired. [Note: According to a Reuter able, published in the "China Mail" last week, the same eleven players have been named, together with Macaulay and Parker of Gloucester, to turn up at Leeds to-morrow, when the England team will be chosen from these thirteen.]

About the 1st Test. Further information has also arrived by mail about the 1st Test at Nottingham, which was washed out by rain. At the time Router indicated that only Gregory and Macartney bowled. But Richardson was also put on. Neither Hobbs nor Sutcliffe was master of the attack, being beaten at times, but they did not get out, They were also once in danger of being run out as a result of a smart throw by Richardson,

Regarding the brief mention in these columns about the state of the wicket at Nottingham, the following is of interest:

The chief factors in high bloodpressure are (1) heredity, (2) peisons produced in the blood by disease, germ infection or faulty living, and (3) constant mental overstrain.

Heredity is beyond our control. He who inherits a poor physique or weak arteries must make the best of his misfortune" by living a simple, healthy life. He can counternet a tendency to high bloodpressure by regular exercise, plain, moderate diet, fresh air, sufficient sleep, and mental self-heip.

Alcohol in excess, nicotine, and the caffeine in coffee are known to raise blood-pressure. Over-eating, with lack of exercise, also allows poisonous waste-products to accumulate in the blood.

Moderate mental activity does not bring on high blood-pressure. It is the incessant overstrain and anxiety induced by the keen competition of modern business that are harmful. Many business men take much less care of their bodies than they give to their cars."

Every brain worker should have several hours daily for relaxation and devote one day in the week to complete rest. His hobbies ought to differ widely from his. daily tasks and he should make a rule of taking each day a ride on horseback, a round of golf, or even a game of bowls. Mild, regular exercise refreshes a tired mind, renews exhausted nerves, and helps to ward off the impending risks of an increasings bloodpressure.

None of us can avoid having some blood-pressure. "Our arteries harden as we advance in years. It does not follow because the arteries "get a little rigid or the bloodpressure rises a trifle that a manshould live line fear and trembling

POSITION OF THE COTTON

Dover, July 8. Bogged in a morass from which it seems impossible to extricate it, was the description of the present situation of the cotton industry, in the presidential address by Mr. F. W. Birchenough, of the Cottonspinners and Amalgamated Operatives Association, at the annual meeting of the General Federation of Trade Unions.

He said that the financiers' speculative madness was strangling the industry.

Mr. Birchenough strongly criticised the last great lockout in the woollen and textile industries, and alleged that in proportion to the population there were more millionaires in Bradford than elsewhere in the kingdom. Their millions were made out of raw and manufactured wool.-Reuter.

MR. CHAO-HSIN CHU'S

OUTBURST. Mr. Chao-hsin Chu seems to have lost his temper at Geneva. but in the heat of the moment he probably said things he did not really mean. His assertion that Britain is "poisoning the world with its drugs," coming from one who has repeatedly declared his love for England, who looks upon it as his "second home," and who knows how sincere the British effort is in regard to opium, is somewhat extraordinary. The adjournment for tea, with which the French chairman adoritly cut the

discussion, was designed to soothe the ruffled feelings of the Chinese' representative, and perhaps we shall hear little more of the incident. It must be said, however, that although a vast quantity of drugs has been seized by the Customs during last two years, not a single ounce has emanated from Great Britain, nor is there any record of any British manufactured drugs having entered China during the past twelve months, except in minor quantities solely for medical purposes in accordance with the regulations. On the other hand, on the authority of the correspondent of Bookbinders. "The Times," consignments of "THE prohibited drugs immeasurably in excess of medical requirements are imported by native firms under official licences procured by bribery of officials, many of whom throughout the country connive at the traffic for interested and personal motives.
